

A roofer recorded the number of hours each employee worked in a week and the number of boxes of nails each employee used.

Time (hours)	Boxes of Nails Used
40	24
9	4
19	8
36	28
30	16
28	12
30	14

Create a scatter plot to display the data.

Dependent Variable:

Independent Variable:

Tips for a LEVEL 4 Scatter Plot

- include a title
- label the axes
- choose an appropriate scale for the axes
- make sure your scale is consistent
- put the independent and dependent variables on the correct axes
